

LifeGrow™ - Vertical Gardens / Green Wall

Project Location: New Delhi, India

Date of Commencement: 16th February 2013

Date of Completion: 9th March 2013

By installing Life Green Systems' LifeGrow™, client has gained an aesthetically beautiful with individual plant access modular structure.

The particular site posed a number of challenges. The varying light throughout the year made plant selection a crucial element. Apart from this the client's objective was to soften the space and to introduce a literally greener look to the ambience so that patrons could enjoy outdoors as well as indoors. In addition, the client required a cost effective and easy solution to upgrade the area aesthetically.

The Solution:

The Life Green Systems' LifeGrow™ - Vertical Garden/ Green wall was the perfect solution for this Project, bringing together a cost effective, flexible and robust system.

Area of Vertical Garden: 50 square meter

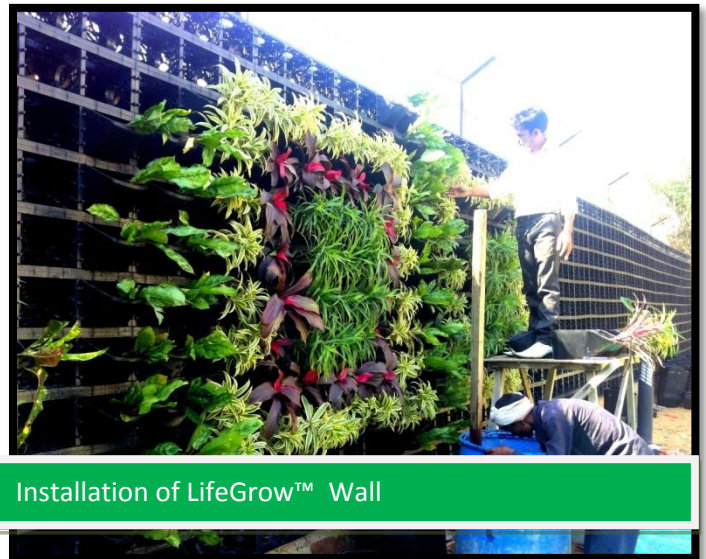

Design and Installation aspects of this project:

- Drip Irrigation
- Erection of LifeGrow™ modules
- Growing media

Easy & durable installation of Life Green Systems' LifeGrow™

Installation of LifeGrow™ Wall

Why Life Green Systems?

Our **LifeGrow™** modules for Vertical Gardens are easy to install, maintain and can be quickly fixed to any structural wall including brick, concrete, wood, sheet metal, drywall and other surfaces. The strong design and ease of installation makes it a better choice for landscapers, architect and gardeners in general.

Life Green Systems create and design living systems such as green roofs and vertical gardens to provide many ecological, aesthetic, and financial benefits, including:

- Controlling storm water runoff, erosion, and pollution
- Improving water and air quality
- mitigating urban heat-island effects, cooling and cleaning the air more than doubling the service life of roofs
- Conserving energy
- Reducing sound reflection and transmission
- Creating wildlife habitat
- Improving the aesthetic environment in both work and home settings

We look forward to helping you find your balance with the ecology.
